

COVID-19 Response Delivery Amendment

To keep FBFH staff and network partner staff, drivers, and volunteers safe we have created an amendment to our driver and network partner delivery expectations. This is a temporary amendment to address concerns and safety for all involved during COVID-19.

- Food Bank for the Heartland drivers will be wearing masks when they are in the public
- Food Bank for the Heartland requests that all network partners and volunteers present at deliveries wear masks.
 - This is to ensure the safety of everyone at the delivery
 - Food Bank drivers will have masks on hand if needed
- If network partner staff/volunteers choose not to wear masks during delivery, the driver will observe least contact measures/social distancing and will not enter the facility, instead dropping product before the threshold.
